

# Announcements

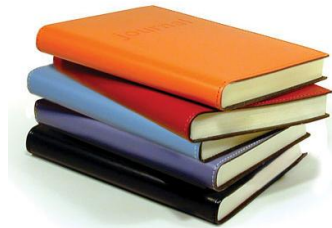

**Thank you everyone** for getting all of your pre-meeting materials in to The HMCRC. We appreciate the 100% response rate we received for the progress report summaries, Consort diagrams, and the summary reports. We also greatly appreciate everyone who is able to attend this final grantee meeting!

---

**The Health Maintenance Consortium Site Project Summary Reports** – First drafts are now complete and included in your meeting folder. At this point, many sites are still finishing up projects and analyzing their data. We will be coming back in 6 months and one year from now to collect updates and new findings.

**The Health Maintenance Consortium Special Journal Issue** – A list is included in your meeting folder that lists the sites that have expressed an interest in contributing to an upcoming special journal issue. Matthew Lee Smith, a Post-Doctoral Fellow at The HMCRC, will be contacting you in the next several months with further details

---

**HMCRC Website, Job Postings** – The HMCRC Website has a page specifically dedicated to jobs. Visit <http://hmcrc.srph.tamhsc.edu> and click on “Job Postings” for the latest positions. If you know of a position, please feel free to email us and we’ll post it to this webpage. Here are some jobs that were recently posted:

### **Cancer Research Training Award (CRTA) Fellowship in the**

The National Cancer Institute is pleased to invite applications from qualified candidates for a Cancer Research Training Award, with an emphasis on gene-environment-behavior research. This CRTA appointment is a one-year award, with option to renew, with the Health Promotion Research Branch, Behavioral Research Program, Division of Cancer Control and Population Sciences of the National Cancer Institute

**Research Chair in System Sciences, McGill University** – The Brain-to-Society Research Center for Physical and Mental Health and Well-Being is seeking candidates for a research chair with tenure-tracked position with strong roots and accomplishments in systems sciences who will play a leading role in pushing the boundary of the transdisciplinary study of individual, organizational and collective choices. Candidates at both senior and junior levels are invited to apply.

### **Prevention Is Primary: Strategies for Community Well Being –**

(<http://www.preventioninstitute.org/PreventionIsPrimary.html>) aims to move future practitioners from the margins of prevention to its core by defining the elements of quality prevention efforts, identifying best practices and illustrating the application of prevention principles in a multitude of settings. The publication touches upon necessary partnerships, trainings, visions, and policies that go into successful prevention efforts.
