

## Health Maintenance Consortium Grantee Update Summary\*

### Measurement Status

#### IRB Clearance Measures

- 13 grantees have obtained clearance for IRB measures
- 6 grantees have not obtained clearance. Of those who have not, they expect to have clearance by the end of September.

#### Measures based on measurements employed by other Health Maintenance Consortium sites

- 8 have added measures based on measurements employed by other sites
- 11 have not added measures based on measurements employed by other sites

#### Ability to change or add measures

- 14 can change or add measures
- 4 cannot change or add measures
- 1 can possibly add or change measures

### Data Collection Status

#### In the field

- 8 programs are in the field
- 11 programs are not yet in the field

#### Major data collection points

- Major data collection points range from baseline to 15-year follow-up.
- The majority of sites are collection data approximately every 3-6 months over a two year period.

### Recruitment Status

#### Year one recruitment goals

- Year one recruitment goals range from 3 to 3,545

#### People have been recruited as of July 31, 2004

- 13 grantees have not yet recruited participants
- Of the 6 that have started recruitment, the numbers range from 6 to 164

#### On target regarding projected numbers

- 8 sites are on target
- 3 sites are not on target
- It is premature to address recruitment targets for 8 sites

#### On target regarding minority recruitment projections

- 5 sites are on track
- 1 site is not on track
- It is premature to address this question for 12 sites

#### Interested in technical assistance session or workgroup activities focused on strategies to enhance recruitment and retention, especially around vulnerable or hard to reach populations

- 12 sites are interested
- 7 sites are not interested

#### Including additional reach questions

- 5 are including additional reach questions
- 11 are not including additional reach questions
- 3 did not respond to this question

## **Intervention Status**

### Is intervention finalized?

- 12 yes
- 5 no
- 2 N/A

### Levels at which interventions are target (multiple responses were given)

- Individual -- 15
- Family -- 4
- Organizational -- 2
- Community -- 1
- Environment -- 5
- Regulatory or policy -- 0
- Other - 1
- N/A -1

### Major intervention elements sites are implementing. (multiple responses were given)

- Addressing risk perception - 5
- Goal setting and tracking progress - 11
- Building competency and behavioral skills - 11
- Enhancing motivations - 11
- Fostering social support - 9
- Modifying environments - 8
- Changing policies or regulations - 0
- Others -- 4
- N/A - 1

## **Topics for Cross-Site Participation**

### Interest in participating in study (and paper) to examine effects of intervention elements across studies.

- 15 yes
- 1 maybe
- 2 no
- 1 N/A

### Interest in discussing strategies for making interventions more culturally or linguistically sensitive

- 12 yes
- 6 no
- 1 N/A

## **Data Sharing**

### Developed a data sharing plan

- 4 yes
- 15 no

### Interest in specific session on data sharing

- 8 yes
- 10 no
- 1 maybe
